ABOUT

A self taught Full stack developer expertise in advanced web development. Proficient working in both frontend and backend. Have a track record of delivering excellent results under time constraints and an ability to adapt to new technologies quickly. Prepared to exceed expectations to make a meaningful impact on any related roles.

PROFICIENT IN

- | | | |
|----------|----------------|-------------|
| • Python | • PostgreSQL | • Bootstrap |
| • React | • HTML & CSS | • DRF |
| • Django | • RESTful APIs | |

FAMILIAR WITH

- | | | |
|-----------|------------------|-------------------|
| • MongoDB | • Micro services | • Data Structures |
| • Git | • Channels | • AWS |
| • Nginx | • JWT | • Tailwind CSS |
| • Docker | • Celery | • Figma |

PROJECTS

Connect X (Dev Community App) -(DEC 2022-JAN 2023)

A Developers Community web application made completely responsive and covers all parts of social media. The goal is to combine file sharing and social media features together. Implemented a real time chat with channels and websocket. Unique features like attaching source codes (any file type) with posts and uploading premium source codes or libraries for exclusive users has added. Backend is written using reStructuredText and adheres to excellent coding standard and readability. The frontend is deployed in AWS Amplify and the Rest API backend is deployed in EC2 Server.

TECHNOLOGIES USED

- | | | |
|--------------------------------|------------------------|-----------------|
| • Django -Backend framework | • Stripe Payment | • Tailwind CSS |
| • React.js -Frontend framework | • WebSocket | • Material UI |
| • PostgreSQL -Database. | • Gunicorn,Uvicorn | • Framer Motion |
| • Django REST Framework | • AWS S3, Amplify, EC2 | • Channels |
| • Celery | • JWT | • Redis |

Face Mask Detection -(NOV 2021-APRIL 2022)

A realtime Mask detecting AI app that detects people not wearing masks and added a system of removing their attendance from the register. This app was made when COVID 19 was in its peak. It can be helpful to ensure sanitization of products and safety of workers. Integrated a web applications of user management for android and desktop with it.

TECHNOLOGIES USED

- Flask-Framework
- Tensorflow
- Mysql - Database.
- Frontend-Android, HTML, CSS
- Repo : <https://github.com/Hafimuthasir/Face-Mask-detection.git>

EDUCATION:

Present | Brototype

Intern - Full Stack Web Development

June 2019 - Mar-2022 | ISS Arts and Science Collage (University of Calicut)

Bachelor of Computer Application - BCA

Mar-2017-Mar-2019 | GHSS Pandikkad

Higher Secondary- Science

Apr-2017 | Pandallur Higher Secondary School

High School

STRENGTHS

- Problem solving
- Perfect Planning
- Time Management

LANGUAGES KNOWN

- ENGLISH - Professional Proficiency
- MALAYALAM-Native

DECLARATION

I hereby declare that the above particulars of facts and information stated are true, correct and complete to the best of my belief and knowledge.
